

This application uses numeracy skills from the following skills units:

- **Problem Solving A**
- **Number A**
- **Calculation A**

Quality checks are made regularly in your industry.

Checks are made every 20 minutes and take 2 minutes to do.

- 1 *How many checks are made every hour?*
- 2 *How much time is spent doing checks each hour?*
- 3 *How many checks will made during an eight hour production run?*
- 4 *What is the total time spent on doing quality checks during each eight hour production run?*
